FREE WOOL A FAILURE,

The Rock on Which the American Free Trade Ship is Going to Pieces-Facts Against Prophecies-What Was Promised and What Has Happened.

Horkheimer Bros. have furnished the

INTELLIGENCER the following instructive clipping on wool affairs appearing in the Boston Commercial Bulletin of the

In 1884, at a political meeting held at the Meiomaon, in Boston, to establish party lines on a new basis, Col. Charles R. Codman made free wool a party issue. It was accepted by President Cleveland in his message to Congress on December, 1887, and since that time there has been a battle for free wool and woolens that has resulted at length in free wool and reduced duties on woolens. The substantial victors in this core.

The substantial victors in this contest, the New York Evening Pest, the Louisville Courier Journal, the Wool and Cotton Reporter, the Boston Herald, the Springfield Republican and other organs of the free trade movement pro

organs of the free trade movement promised the American people certain gains as a result of the removal of protection, especially the removal of protection from wool.

Now, the scoured cost of American wool went down practically to the free trade level in 1893, in anticipation of the change. Wool has fallen in the United States since 1893, but it has also fallen abroad. Wool has been actually free since last August, but as far as cost of production is concerned American wool has been on a free wool basis for a year. It is instructive, therefore, to year. It is instructive, therefore, to place the actual results of this agitation beside the pledges of the agitators.

THE PROPRECY-Foreign wool would rise in price to the American level.

THE FACT-American wool dropped to the foreign level, and for three months after the enactment of free wool both foreign and American wool have de-clined.

would be required for "mixing," and the American clip and flock would in-

THE FACT—The American flook dropped 2,225,536 in one year. The amount of wool shorn from American sheep declined in one year 11,800,000 rounds.

THE PROPRECY .- American wool raleers would prosper.

THE FACT.—In many districts the

sheep have not even paid expenses.
The loss to American wool growers in the shrinkage of value of sheep and wool in one year amounts to \$57,000,000.

THE PROPHECY.—Foreign manufacturers would rush into the "markets of the world" for American wool, stimulating

The Fact.—In the ten months end-ing October 30, 1892, we exported 201,-485 pounds of American wool. In the exported 894,510 pounds. Neither amount is appreciable in accountry that produced in 1893 385,000,000 pounds of wool. The export is still mainly, as it has been, small lots sold at a sacrifice to get rid of them. ten months ending October 30, 1894, we exported 894,510 pounds. Neither

THE PROPHECY.—A better demand for fine all wool goods would spring up owing to the decrease in price of cloth [which has taken place.] A smaller proportion of wool substitutes would be used and a smaller proportion of low grade goods manufactured.

grade goods manufactured.

The Fact.—High grade, all wool goods have suffered more than any other variety. Low grade goods are relatively much better sellers. In the ten months ending October 30, 1894 (the latest statistics available), we imported 1,251,315 pounds of waste, rays and shoddy; in the ten months ending October 30, 1892, but 31,539 pounds.

THE PROPHECY. - American mills would sell more goods than ever and the in-creased business would increase wages.

THE FACE. - American mills have been running on part time and have only secured orders by sharp reductions in wages, with the usual accompaniment

THE PROPHECY .- America with wool reduced to a foreign level would rival England and export woolen goods all over the world.

over the world.

The Fact.—Wool has been practically on a foreign level for a year. In the ten months ending October 31, 1894, we exported woolen goods to the value of \$618,687, in the same period in 1893 to the value of \$904,463. The increase, however, was mostly in carpets, and that sudden demand is now dying away, the export of American carpots in October, 1894, being but 17,845 yards against 36,186 yards in October, 1893 against 36,186 yards in October, 1893 though carpet wool was not on a foreign level in 1893, but higher in cost in Amer ica than abroad at the time of the larger

THE PROPHECY.—A general cheapening to the consumer, resulting in greater comfort at less expense.

comfort at less expense.

The Fact.—The purchasing power of the consumer being reduced, together with the price of the articles consumed, the people are, at least, no better off than they were before. In many cases they are much worse off. There has been a reduction in the price of dress goods, but the retail price of clothing is little, if at all, lower than it was two years are. Manufacturers and jobbers of clothing are doing a smaller business, and cannot afford to do it on so small a margin.

The blessing of free wool is ours at last. We have a harder battle than before with foreign manufactured goods. We have gained no foreign markets. Our mills are neither as well nor as profitably employed as in 1892. They have not even found it desirable to substitute any but Australian for domestic wool at the same price. The net result has been the lowering of the price of American wool to an unprofitable basis without a perceptible benefit to any person concerned.

The American wool grower has as much right to protection as the American manufacturer. A moderate advalorem duty on wool would hamper no industry, and justice demands that in the days to come the American raisor of wool shall at least be treated as well as the American raisor of figs and peanuts.

nute.

Electric Bitters.

This remedy is becoming so well known and so popular as to need ne special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist, and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price 50 cents and \$1 per bottle, at Logan Drug Co.'s Drug Store. 5
